## 300 Candidates for Alberta Election

Nominations for the Alberta general elections, August 22, closed on Monday.

Almost double the number of candidates that contested the 1930 election are in the field today. Five years ago 165 were nominated; this year it is expected approximately 300 will contest for the 63 legislative seats.

The Alberta Social Credit League, under leadership of Wm. Aberhart, contesting its first election, will have the largest group of candidates.

Final nomination reports are expected to show the following lineup:

Cand'ts	
Alberta Social Credit....	63
United Farmers of Alberta	61
Liberals.....	61
Conservatives.....	55

The remainder will be divided among Independents, Labor, Communists, Douglas Social Credit and Socialist candidates.

Premier R. G. Reid and all the members of his cabinet, with one exception, Hon. Irene Parlby, are seeking re-election.

D. M. Duggan, provincial Conservative leader, and W. R. Howson, head of the provincial Liberal party, are again running for Edmonton seats. F. C. Moyer of Drumheller heads the Independent group.

William Aberhart, leader of the Social Credit forces, will not be a candidate, but if his party is successful he will assume the premiership. A by-election would be arranged to provide a seat for him.

Calgary has a score of candidates, representing all major parties, while Edmonton nominated 27. Both are 6-member seats.

A joint picnic of Carstairs, Acme, Carbon, Three Hills and Didsbury Young Conservative Clubs will be held at Milne's farm, 1 1/2 miles south of Sunnyslope, next Sunday, August 18th at 2:30 p.m. All young conservatives are invited to be present. Please bring lunch.

Mrs. A. C. Fisher and family returned last week from an agricultural holiday at Three Hills, where she visited her brothers and brother-in-law, Mr. Walter Dawn. Lois Mueller, niece of Mrs. Fisher, accompanied them on their return trip and will spend a few weeks here.

## A. Speakman Nominated

A. Speakman, M.P., the sitting member for the Red Deer constituency was unanimously nominated U.F.A. candidate at the federal convention held at Red Deer on Friday last.

The delegates from Didsbury were Mr. and Mrs. N. Clarke, Mr. and Mrs. Ed. Parker, Charles Dickau, John Liesemer, Goldwyn Liesemer and Walter Scheidt.

## Memorial Ceremony.

Sunday afternoon last members of the local Canadian Legion and returned men of the district paraded to the Butte for their annual Memorial ceremony.

Forming up under Sgt. Maj. Cogswell in front of their headquarters and headed by the Didsbury Boys' Band the men marched to the Butte led by President Jack Robertson and their Provincial Chaplain, the Rev. W. T. H. Cripps of Red Deer. Returned men from Calgary, Crossfield and Carstairs also joined in the parade. In the meantime a large assembly had gathered on the Butte.

The service opened with the hymn "Lord of the Lands," followed by the Lord's Prayer and another hymn. For his scripture reading Rev. Cripps chose the passage from St. Paul's first epistle to the Thessalonians, 4:13-18, after which he led the Memorial Prayer. The laying of the wreaths and flowers was then observed.

At the sounding of the "Last Post" by Dr. H. C. Liesemer the flag was lowered to half-mast in reverence and honor to those men of Didsbury and district who laid down their lives in the Great War. The flag was hoisted again at the sounding of "Reveille," the latter being preceded by a two-minute silence.

The Provincial Chaplain gave a splendid and impressive address, choosing as his text, "Put off thy shoes from off thy feet, for the place whereon thou standest is holy ground" (Exodus 3:5).

With the singing of "O Valiant Hearts," the National Anthem and pronunciation of the Benediction the service was brought to a close.

After the ceremony several selections were rendered by the Boys' Band, under direction of Dr. H. C. Liesemer.

## Will Be Married In Australia

A Marconigram has been received stating that Miss Alice Pearson arrived safely at Sydney, Australia on Monday and that she will be married to Mr. Jack Hislop this Saturday. Mr. Hislop, who was manager of the Minaret Elevator for several years, went to Australia last winter.

## Special Announcement.

W. H. B. Sharp wishes to announce that commencing tonight (Thursday) valuable coupons will be issued with each adult admission, in return for which will be given handsome pieces of a complete Wedgwood dinner set.

Coupons will be given at every evening performance, Wednesday, Thursday and Saturday.

## Liberal Meetings.

The most important meeting in the Liberal campaign will be held this Saturday at Keiver's Lake at 2 p.m., when G. G. McGeer, K.C., Mayor of Vancouver, and W. R. Howson, K.C., provincial Liberal leader, will be the principal speakers. Andrew Sheline and Dr. A. Mann, Liberal candidates for Didsbury and Olds respectively, will also address the meeting.

Monday, August 19 a meeting will be held at the Didsbury Opera House at 8:30 p.m. when A. Macleod Sinclair and A. Sheline will speak.

Tuesday, August 20 C. J. Ford, K.C., Daniel Whitney and A. Sheline will speak at the Carstairs Masonic Hall at 8:30 p.m.

## E. P. Foster Addresses Social Credit Meeting

The Opera House was filled to capacity Friday evening when an interested audience heard E. P. Foster, Social Credit candidate for this district, and Mr. Johnson of Three Hills speak in the interests of the Social Credit party.

Mr. Johnson was the first speaker, and dealt at length with present-day evils and conditions, showing how the machine age had displaced workmen, and declaring that the benefits and profits created by the use of labor-saving machinery must be directed to the good of the people in general. He showed how to mark the ballots in the provincial elections.

Mr. Foster in opening his discourse flayed the banks, stating that 95 percent of the business in Canada is done with credit rather than with actual currency, and cited the case of the town of Raymond as an example of business being done with scrip.

Considerable excitement was aroused in the question period after the speeches when Mrs. Kerna of Acme, and one or two others presented questions but were unable to get a satisfactory answer because of confusion and protestations among the audience.

The meeting was presided over by Mr. Fred Moyle.

## Evangelical Church Notes

The Pastor's sermon subject at the morning service will be "Fellowship with Christ"; and in the evening, "Alibis."

## A New Delight for the Home Builder!

## Chesterfield Suite FREE . .

A Suite Any Home Would Be Proud To Own. Solid Hardwood construction; reversible spring-filled cushions and roll arms; upholstered with a combination of two rich tapestries; show wood trim. See this suite now on display in our show window.

Save Your Cash Register Receipts and Deposit Them to the Credit of the Person you want to Win.

### CONTEST RULES

1. Open to everyone except employees of Builders Hardware.
2. Tickets to be deposited in box in store.
3. Tickets are good for their face value in points.
4. Contest leaders will be posted the first of each week.
5. Contest closes Dec. 24th at 12 p.m.
6. Suite to be displayed in store until closing date of contest.

Your BINDER TWINE and HARVEST REQUIREMENTS WILL GIVE YOU A LEAD that will be hard to overcome!

## Builders Hardware Stores Ltd.

ED. WATKIN, Manager. PHONE 7. BILL ROSS, Assistant

## Gun Club Meeting.

A meeting of the Gun Club was held Monday evening when officers of the club were elected.

George Julien was elected president; Ken McCoy vice-president and Ed Watkins secretary.

It was decided that at any of the shoots any member can take as many shots as they wish, and that the cost would be 6 cents per shot, the club supplying all shells, pigeons, etc.

The next meeting will be held at 6:30 sharp Monday evening next.

## Liberals at Rugby

Rugby school house was filled to capacity last Wednesday evening when a local Liberal battery, comprising Andrew Sheline, provincial candidate, C. R. Ford and W. H. Davies, addressed a meeting at that point.

Mr. Sheline dealt very acceptably with the Liberal platform, stressing the values of public services such as health, state medicine, etc. He also spoke of the financial position of the province and the solution to that problem as outlined by the provincial Liberal leader, W. R. Howson, K.C., M.L.A.

Mr. C. R. Ford spoke on the subject of social credit, and showed the impracticability of it as a satisfactory solution to the problems confronting Alberta.

Mr. W. H. Davies dealt briefly with the Liberal solution to the farm problem and showed the fallacy of social credit as being in any way satisfactory to the difficulties facing the livestock producers of the province.

Miss Marion Sissons, daughter of the Liberal Candidate for Lacombe, occupied the chair and Mrs. James Hosegood presided at the piano during the singing of "O Canada" and the National Anthem.

Mr. and Mrs. G. A. Wallace and family are visiting for a few days with Mrs. Wallace's mother at Admiral, Sask.

## Obituary.

### Mrs. LIZZIE BRUBACHER

After a lingering illness of six months Mrs. Elias A. Brubacher passed away at the Didsbury Hospital on Monday, August 12, 1935.

Lizzie (Shelly) Brubacher was born near Preston, Ontario on June 26, 1874, and was married to Elias A. Brubacher on February 12, 1902. To the union were born four children: Herbert, Whitelaw, Alberta; Ruth, at home; Grace (Mrs. Ralph Budgeon), Bon Accord, Alberta, and Gordon, of Gadsby, Alberta. There are four grandchildren.

Besides the bereaved husband and family there also survive, one brother, Caleb Shelly, of Kitchener, Ontario, and two uncles, Jacob and Daniel Shelly.

Mrs. Brubacher was converted in her girlhood and became a member of the United Brethren Church in Berlin (now Kitchener), Ontario. Twenty-two years ago she, with her husband and family, moved to the Didsbury district when she, with the rest of the family became a member of the Evangelical Church. She had since been a faithful and earnest worker in the various church organizations with which she was connected.

She was a kind and loving mother and regarded the Home and Church with sacredness. Through her very amiable manner she had gained many friends since her abode here, who join with the bereft family in mourning her departure.

Funeral services were held at the Evangelical Church on Wednesday, August 14 at 2:30 p.m., conducted by the Pastor, Rev. H. J. Wood, assisted by Rev. F. Vincett, Pastor of the M.B.C. Church. Interment took place in the Didsbury cemetery.

### Knox United Church Notes.

For the next two Sundays of August the Rev. F. E. H. James of Olds will be the preacher in the Knox Church. All friends are cordially invited. There will be one service only at Westcott, namely Sunday, August 18th at 3:00 p.m.

## The Country Weekly Newspaper

"What do you think of the future of country newspapers?"

This question was asked Mr. Wright A. Patterson by a teacher of journalism in one of the western United States state universities in the course of a conversation in which the successful efforts of big city dailies and periodicals to increase circulation in rural sections was noted, and the editorial content of these publications discussed. In answer, Mr. Patterson painted a picture of the future as he sees it.

Admitting that there is a place for the small weekly newspaper—and there is, and probably nowhere more decidedly so than on the prairies of Western Canada—the important question is: How is that position to be maintained, improved, developed; and are our Western Canadian editors alive to the situation and endeavoring to meet it? If they are, they will undoubtedly receive the public support they will so well deserve.

Both weekly newspaper publishers and the reading public will be interested in Mr. Patterson's word-picture as it is presented in a recent issue of The Publishers' Auxiliary. While a bit too lengthy for complete reproduction in this column, excerpts may be given:—

"There has been, within the last quarter of a century, a radical change in the people of the rural communities—the people of the towns and on the farms. Up to a quarter of a century ago, these communities were self-centred. The people seldom got beyond their local market place. It was a day's task for the farmer and his family to get as far away from home as the nearest town, possibly not more than three or four miles away. The only form of conveyance was the farm wagon, or the horse and buggy. The roads were narrow stretches of dirt that were, during portions of the year practically impassable. From one year to another the vast majority of the rural people—the people of the towns and farms—did not get beyond their municipal lines. It was the exceptional rural family whose children went away to school. The students at universities were largely from the cities and the number attending universities was small as compared to the present time.

"Under such conditions the horizon of the rural family was extremely limited. Its members had practically no contact with the outside world and quite naturally the interests of these rural people centred about themselves and their neighbors.

"The country newspaper that catered to that local interest, that recorded the events in which the people of each community played a part, was satisfactory to the people of these communities. To this local news coverage, many editors added some general news and entertainment material and made for that time a satisfying newspaper that met very rural reader-demand.

"Today conditions are radically different. The automobile and good roads have made travel possible. The day's trip now is to the city anywhere from 50 to 300 miles distant from the rural home. The World War took tens of thousands of the boys of the farm into distant training camps and associated them with boys from every section of the nation, and with every class. It sent them across the ocean into far distant lands. It widened their horizon to include practically the entire world and all classes of people and all forms of activities. It gave them a new outlook and new interests. That was 18 and 20 years ago. The farm and town boys of the World War days are now the men, the heads of families, of the rural communities of these days.

"The radio has brought the world to the rural community fireside. It has widened the view of the people of these communities until it includes all Canada, the United States, England, France, Japan, Australia and every known point in the world.

"Go to the universities to-day and a large percentage of the students are from the towns and the farms. These young people are acquiring for themselves and taking back to the rural homes from which they come, an increased interest in national and world affairs, in history in the making, in the arts and sciences and in literature.

"As a class the rural audience of to-day is a more intelligent audience than that of the city. The people of the towns and farms have to-day a wider interest than the average individual of the city. They are in no sense provincial.

"It is such an audience the country newspaper of to-day and to-morrow must appeal to if it is to live. It must bring to them intelligent interpretations of what is happening throughout the world because it is to-day their world, and they know that its happenings may directly concern themselves. The cotton farmers of the Southern States know that happenings in far-away Japan may make or break the price they get for their cotton. They know that should war come between Italy and Ethiopia, it might affect the regulation of the waters of the Blue Nile and so affect the cotton crop of the Egyptian Soudan and create a larger demand and higher price for American cotton—their cotton. The wheat farmers of Western Canada know that drouth in Russia, in Argentina, in Australia, in France or many other sections of the world would certainly raise the price they would get for their product.

"The people of the towns and farms insist upon keeping in touch with those national and world affairs that have a direct bearing on their lives. They expect the newspaper they buy to bring to them interpretations of such happenings. They do not want rumors and surmises, but they do want statements of fact and what such facts mean. They will buy the newspaper that gives them such information."

Weekly newspaper editors are awakening to these new conditions. They are realizing that it is quality not quantity of reading matter that is demanded, and that the demand can be met in the limited space of eight to 10 or 12-page papers, giving them room to cover the community happenings and with that interpretations of events in the nation and the world, and a reasonable amount of entertainment.

For the paper that does these things there is a future. Such a paper will cover all of the to-day's national and world interests of its readers and will make itself so meet the newspaper needs as to leave no necessary place for a paper from the outside. For such a paper there is a future, greater than that of the past, and the majority of the editors of country newspapers are awake to these things. The small minority that are not, or do not awaken will, in time, pass out of the picture.

### New Form Of Flight

Man In Florida Has Used Wings With Success

The idea of strapping "wings" on a man was elaborated in some detail by Leonardo da Vinci. At the Science Museum in South Kensington there is the original "Ornicopter" designed by Frost in 1902. It is a beautiful work but never flew. It seems now that a new form of flight has been made practicable by Clem Sohn, known as the "human bat" who only recently flew over Daytona Beach, Florida, with "wings" of his design attached to his arms and "webbed feet". The earliest dreamers who sighed for the wings of a dove could have done the same if only they had had some means of alighting safely. The parachute has made bird-like flight possible. Once the airman has thrown himself from an airplane at a suitable height he has only to fall 1,000 feet to gather a speed of 100 to 150 m.p.m. At this speed he can glide bank, turn, or execute any manoeuvre.

### Empire Trade Agreements

New Deal With Canada Desired By Australian Premier

A new trade agreement with Canada embodying additional features is desired by Australia, Prime Minister Joseph A. Lyons of that Dominion said in his conference with Prime Minister R. B. Bennett.

The empire trade agreements negotiated in 1932 had proved satisfactory and had brought about an increase in trade. Australia was anxious to achieve further increases and believed a revision of the present treaty in the light of experience would accomplish this. While it was true Canadian exports to Australia had increased more rapidly than Australian exports to Canada, Australia had no grievance and did not consider it had got the worst of the bargain.

### Vimy Pilgrimage

Dominion Organizer Leaves For Europe To Complete Plans

Ben. W. Allen, Dominion Organizer of the Vimy Pilgrimage which is being planned by the Canadian Legion of the British Empire Service League, sailed on the Cunard White Star Liner Albatross to complete arrangements for the reception and billeting of Canada's Peace Army which, at this time next year will be crossing the Atlantic en route to the Battlefields of France and Belgium.

"While the climax of the Pilgrimage will undoubtedly be the Unveiling of the great Memorial on Vimy Ridge," Mr. Allen stated, "the itinerary will include visits to the Battlefields and cemeteries in the Arras, Arras and Ypres sectors, where the Canadian Corps fought its greatest battles and Canada's citizen soldiers made their greatest contribution towards victory and peace."

On the continent, Mr. Allen will confer with the French and Belgian authorities and ex-servicemen's organizations regarding the official part of the program and will complete the arrangements for the route to be followed and the transport and billeting facilities. "We have already had indications," Mr. Allen said, "that our old allies propose to make our visit next year the occasion for joyful demonstrations of comradeship and international friendship. It will be a tremendous experience for the 'troops' and their families."

In London, Mr. Allen, will confer with officials of the British Empire Service League, the Dominion Office and the Canadian High Commissioner regarding the ceremonies which will be held during the four-day visit of the Pilgrims to the Empire capital. Other bodies interested in the arrangements for the Pilgrimage and on whom Mr. Allen will call while in England, are the Canadian Battlefields Memorials Commission, the Imperial War Graves Commission, and the Canadian Pacific and Cunard-White Star Steamship Lines.

Throughout his trip, Mr. Allen will be accompanied by Mr. J. R. Bowler, M.B.E., General Secretary of the Canadian Legion, Dominion Command.

### Donaldson Atlantic Line

Change Of Name Is Announced By Agents

Donaldson Atlantic Line is the new name for the former Anchor-Donaldson Line. It was announced by Cunard White Star Limited, who are their agents in Canada and the United States.

"The change of name signals the return of the Canadian-Scottish passenger service to complete control by the Donaldson interests which originally promoted it," stated George D. Huband, deputy chief Canadian representative of Cunard White Star, in an interview at Montreal.

"The Donaldson Line itself commenced its Canadian operations in 1870 and has since then maintained continuously its Canadian operations in service between Canada and its home port of Glasgow. Its growth has also been marked by the acquisition of the old Allan Line service to South America, the development of the Montreal-Bristol Channel trade and the service from Vancouver to Great Britain."

### New Gyroplane Tried Out

Will Rise Vertically And Attain Ordinary Horizontal Speeds

A newly perfected gyroplane, an aerial craft capable of rising vertically like a helicopter and attaining horizontal speeds comparable to those of ordinary aeroplanes, went through an initial trying out at Villacoublay, France.

Its propellers are placed in horizontal positions, powered by several motors.

### FASHION FANCIES

964

DRAMATIC DOTS FOR PLAY SUIT FOR COUNTRY OR THE BEACH QUICKLY MADE!

By Ellen Worth

The practical playsuit patterned for to-day is the ideal thing for active sports and for camp wear.

It favors the tailored shirtwaist lines, with that little girl air about it, that you'll love.

The suit, buttoning from neck to hem, makes it especially easy to slip into. Generous plaited insets at the sides, lend plenty of freedom to the detachable skirt.

While gaily dotted pique—strawberry pink on lighter pink ground—made the model pictured, there are numberless other smart and inexpensive schemes for this easily made playsuit.

Style No. 964 is designed for sizes 12, 14, 16 and 18 years. Size 16 requires 4½ yards of 39-inch material for the entire outfit.

Patterns 15c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

Summer Fashion Book contains many more smart, cool vacation clothes. Send for your copy to-day, the price is 15 cents.

### Air Routes Are Valuable

Make Communication With All Parts Of Empire Possible

Air and Empire are closely linked. The most valuable bonds in any empire are its communications. The Romans knew that. Their roads were veins for their empire's life-blood. But the speed of modern transport has made communications ten times more valuable. If Britons and Americans could have used airplanes to exchange their views in 1775 America might never have left the Empire. The more air routes we open to keep the Empire together the fewer problems will arise to keep it apart.—London Sunday Express.

### Delegates Entertained

At the annual convention of the Saskatchewan Rural Municipal Secretary-treasurers, the delegates and wives were entertained at a theatre party given by the Central Press Limited, Regina, and greatly enjoyed the picture "In Callente" shown at the Capitol theatre. 2108

### TIRED and IRRITABLE

DO you feel weak and nervous? Is your housework a burden? Take Lydia E. Pinkham's Vegetable Compound. Mrs. M. A. Kelly of Woodstock, New Brunswick, says:

## Nikola Tesla Announces Amazing Developments In The Realm Of Science

Nikola Tesla, Yugo-Slavian scientist, celebrating his 79th birthday, claimed these three amazing developments in the sciences:

A new method and apparatus for transmitting mechanical energy any terrestrial distance.

Passage of an induction current with a varying flux one way only through a circuit without use of a commutator.

Proof after observation of cosmic rays that many of the propositions of relativity are false.

He elaborated these claims in an all-afternoon interview but did not offer proof of his assertions by exhibiting calculations or mechanical devices.

He would not confide at what laboratories he had pursued the work which, he said, had convinced him during the past year that ideas he has long entertained along these lines are correct.

He said his new means of energy transmission would be valuable in navigation, geology and physics. A ship, he asserted, by means of a communication system he would develop from his discovery within a year, could be kept to a true course without misdirection in any weather.

Geologists would be able to explore mineral deposits from the earth's surface with more accurate results than they can attain to with instruments now available. Physicists too, he said, would be able to determine much about the interior of the earth.

The use of direct current without a commutator, he said, would revolutionize motors for automobiles if practical engineers could carry out his findings.

He asserted relativity, in the light of his observations of cosmic rays, becomes what he has long considered it—"a beggar dressed in purple which the ignorant mistake for a king."

Dr. Tesla said he was pleased by his mechanism for transmitting energy more than by any of the other advances he claimed to have made.

Of its effects he said:

"It thus becomes possible to convey mechanical effects to the greatest terrestrial distances and to produce all kinds of unique effects which are of inestimable value to science, industry and the arts."

He added his invention could be used to destructive ends in war. A bomb might be exploded in mid-ocean by a machine no better developed than those he already has constructed, but qualified this by saying it would have to be a bomb he had constructed.

He said he thought this might later apply to any bomb.

Dr. Tesla explained his calling a press conference thus:

Since the death of Edison the public has looked to someone to turn to as a popular symbol of scientific advance, and I am supplying that need."

The statements of Dr. Tesla were read to Dr. Henry A. Barton, director of the American Institute of Physics, the co-ordinating organization for much of the scientific development in the fields touched by Dr. Tesla.

### Education Fund

#### Benefactions Of Lawrence Of Arabia Are Revealed

One of the most valuable anonymous benefactions of Col. T. E. Lawrence—Lawrence of Arabia—was revealed in London. It was an education fund for the children of killed or wounded Royal Air Force officers.

The fund has expended \$4,000 (about \$19,460) since 1928 from an endowment fund from the receipts for the sale of "Revolt In The Desert," Lawrence's chronicle of his Arabian campaign during the Great War.

Scientists at State College, Pennsylvania, have designed and built a tillage meter, a new apparatus for testing plows and other tillage tools.

### Rewarded By Two Kings

#### Story Of Royal Error Told By Retired Minister

Friends at Farmington, Mass., have just learned that Rev. Robert Atkinson Smith, a retired minister, once received a reward from the king of two countries. It was in 1896 when the minister was pastor of a small parish on the Nova Scotian coast.

One night during a terrific storm a vessel went ashore on a reef near the harbor. The minister summoned all men of his parish and two seamen were rescued from the rocks. Bodies of five more of the crew of twelve were recovered.

Weeks passed and a package came from "King Oscar II. of Sweden." It contained a beautiful communion set of gold, wafer cup and a goblet with the arms of King Oscar of Norway and Sweden. The set was from the king of Sweden, the message said, for the rescue of Swedish sailors.

A few days later another message arrived. The set was not from "King Oscar of Sweden" but from King Oscar of Norway. The wrecked vessel was from Norway and the seamen he saved were Norwegians. So the communion set was from King Oscar of Norway.

The minister and his friends are enjoying the story and the polite formality of the messages which their recipient has saved these forty years.

### The Vegetable Garden

#### Average Farmer, Perhaps, Does Not Realize The Full Value

The value of vegetables in reducing the food costs in the farm home is not fully realized, and because of this there are comparatively few good vegetable gardens around the average farm home. A crop value of \$30 for one-quarter of an acre of land in different vegetables is certainly not excessive, and taking for example one province alone, namely Nova Scotia, where there are 50,000 farm and garden holdings capable of producing crops worth this amount for household use only, the total amount would be equivalent to \$1,500,000. There are, of course, many essential details to which close attention must be given if success in vegetable growing is to be achieved but the management of these details is not beyond anyone who can form reasonable judgments in his undertakings. Further, in the questions as to size of garden, location, preparatory tillage, maintenance tillage, commercial fertilizer, cool and warm-season vegetables, good seed, plan of garden, plan of planting, vegetables recommended and other important items, full information is given in the publication "The Vegetable Garden" by W. S. Blair, superintendent of the Dominion Experimental Farm at Kentville, issued by the Dominion Department of Agriculture, Ottawa.

### Dangerous Drug

#### Canada And United States Co-Operating In Fight Against Narcotics

Canada has asked the United States to co-operate with her to meet the growing menace of cannabis sativa, better known as hashish or marijuana. Cordell Hull, secretary of state, told the World Narcotic Defence Association in a message read at its New York conclave:

"This dangerous drug," Mr. Hull said, "is produced from a plant which is to be found in most parts of the country and is a menace particularly to the youth of the land."

Mr. Hull also expressed his "particular appreciation" of the close and effective co-operation which United States authorities have always received from the Canadian authorities charged with control of the narcotics drug traffic.

Onions are expected to constitute Egypt's second best money crop this year.

### Marketing Research

#### Comprehensive Study Involves The Gathering Of A Great Deal Of Information

Many farmers who formerly were interested primarily in production are beginning to realize that the demand for the product which they have to sell is as important in determining the price as the supply of the product. One of the chief objects of agricultural marketing research, as carried out by the Economics Branch of the Dominion Department of Agriculture, is to obtain facts concerning the demand which will lead to increased returns to producers of agricultural commodities. A comprehensive study of the marketing of any particular commodity involves the gathering of information of the whole process of distribution of that product from the producer to the consumer. Such a study includes investigation with respect to the methods and practices of those engaged in marketing, the costs of preparation and transportation, the facilities for handling at the farm, at the country point and at the terminal, auction or public market, wholesaling and retailing costs and the many aspects of the demand or preference of the ultimate consumer. Such a comprehensive investigation might also include a study of the relations of quality or grade to the price obtained by the producer, the country buyer, the wholesaler and the retailer. In the nature of definite marketing research, very little study, according to the "Economic Analyst," has been devoted to the obtaining of facts on consumer preferences and competition with other commodities in overseas markets with a view to expanding the sale of Canadian export products in countries which now use but small quantities of these commodities.

## Social Hygiene Council Is Determined To Carry On Aggressive Campaign

Determined to carry on an aggressive campaign, despite all handicaps, against communicable diseases and to promote public health generally in the Dominion, the Canadian Social Hygiene Council has, it believes, made a worthy record during the past four years. An earnest and continued fight to check the ravages of diphtheria, cancer venereal diseases and other human ailments, the widespread dissemination of educational facts, and the promotion of knowledge among young people as to the care of their bodies, make up a story of compelling interest.

In 1930—the first year of the depression—the Federal Government discontinued the grant it had been making to the Council's nation-wide work over a period of years. This lack of financial aid, together with a serious shrinkage in other receipts due to the depression, was a severe blow. But those interested in the cause refused to bow to defeat. They felt that good health was among the most vital things in the life of a nation. Zealous for the public welfare, they attacked their task with renewed vigour.

The result is that the Council is able to make a report of far-reaching and successful service. Motion picture showings, thirty radio talks annually, co-operation with public health departments, newspaper articles, the creation of health leagues, public addresses, the establishment of a magazine and the constant distribution of useful literature have been some of the activities carried on.

Throughout this four-year period of struggle, with an annual budget of expenditure reduced from roughly \$50,000 to a little over \$20,000, the Canadian Social Hygiene Council has never lost sight of the original objective set up when the organization was brought into being in 1922 at the instance and on the urging of the Government of Canada, namely, Dominion leadership in health matters and a co-ordinated health programme from coast to coast.

With this always in mind, the Council in 1934, in view of the fact that the Prime Minister of Canada proposed to include health on the agenda of the inter-provincial conference of premiers, undertook to obtain the opinions of premiers, or ministers of health, of each province. These were ultimately published in "Health", the official organ of the Council, and given to the Canadian Press for publication throughout Canada. Copies containing the statements were forwarded to all members of parliament. Many newspapers commented editorially on the desirability of a conference between the Dominion and the Provinces on health. A large selection of these comments was then prepared and submitted to the prime minister. The conference, the first of its kind to be held in Canada, eventually became a fact as a consequence of government interests and of growing public opinion, and the important decision reached by this first "Cabinet of Health", as it might be called was that a Royal Commission on Public Health should be created to investigate the whole question of the cost of illness, present services for prevention and cure, and the possibilities for the future. This conference and its immediate results may well be looked upon as the achievement of an objective for which the Council has always striven. This alone would justify the existence and the work of the organization. It is hoped that the way is paved for further grants from the Dominion, as well as from the provinces and the public so that educational effort, so essential to the progress of the country, may be carried on.

Then, in order to continue an intensive campaign against diseases, the film "The End of the Road" was exhibited to over 50,000 people in Toronto, and 20,000 copies of literature were sold. The picture was later shown in various parts of Ontario and Quebec, being seen by 100,000 people in Montreal alone.

This was followed by the production in Hollywood, under the supervision of the Council but without cost to it, of another film "Damaged Lives". It has proved to be one of the most valuable of the Council's contributions to health education. It has been shown in many parts of the world and has been seen by more than 750,000 persons in Canada. About 200,000 pieces of literature have been sold where it was exhibited. At least 5,000,000 people have seen it in Great Britain, not to speak of other countries in Europe, South America and elsewhere.

Another means of education has been through articles of various kinds which the press throughout the Dominion has used. Radio work for health has been carried on over 18 stations through talks prepared by the Council on various health subjects which include communicable disease such as diphtheria, smallpox, measles, scarlet fever, milk, the common cold, etc. Special efforts have been made during this past year to give talks on cancer and the Council was glad to co-operate with the Department of National Health and the King George V. Jubilee Cancer Fund in presenting talks on this subject, over its radio stations, both in English and French.

Other organizations and departments which use the talks the Council has made available are the Greater Vancouver Health League and the Departments of Health of Saskatchewan, Alberta and Nova Scotia.

Crawfish have eyes in their tails.

## The SNAPSHOT GUILD

LET THE SUN WORK FOR YOU

Watch for unusual lighting when taking snapshots of outdoor scenes.

Many of you who want to take your photography seriously and get some really attractive, artistic pictures would probably like to have some further information on proper lighting in taking snapshots.

The lighting of the subject has so much to do with securing that quality often referred to as "atmosphere" in a picture. There are a number of ways in which a photograph may be given apparent depth, or third dimension. Taking pictures when there are long shadows, getting a reflection in the foreground, using strong side-lighting or back-lighting, and timing the exposure just right so that the detail of objects in shadow is not blocked out, are precautions that contribute much to the desired effect.

Suppose we consider each of these separately. Shadows, thrown in long drawn-out splashes across walls and walks, makes one feel, more than anything else, that he is looking into a picture instead of looking on a flat piece of paper carrying images of recorded objects. The foreground should be well broken up with shadows so that there is not too much contrast between it and the rest of the picture.

When a body of water can be included as part of the foreground, then there are really wonderful opportunities for adding depth. The reflection will carry one's attention back and away from the foreground

and into the picture—and lead to the principal point of interest. The only precaution necessary when snapping a picture with a foreground of water in strong sunlight is to watch that a swell or wave does not throw reflected sparkles of light upon the lens, as that may fog the picture.

Along the roads and trails, through forests where long spears of sunlight pierce into the shadows there are unlimited opportunities for striking pictures with depth. If the foreground of your picture is not well lighted and you want to get the shafts of sunlight shooting through the shady parts of the background an exposure slightly shorter than you would ordinarily make is advisable.

Don't just open your camera and shoot when taking pictures. Give your subject some thought and in doing so you will be rewarded with pictures you will be proud of and they will whet your appetite for many more snapshotting expeditions. Viewpoint means much and is an important factor in picture taking. It too, has much to do with the perspective we get in pictures. If the perspective is not pleasing to the eye, it will not be pleasing in the picture, so, as I have said before, study all the possibilities and angles of your proposed picture before you snap it.

JOHN VAN GUILDER.

## Gov't Action Seen Wheat Price Hope

Only action by the governments concerned can give lasting solution to the problem of low wheat prices. Sandys and Company, one of Britain's leading grain firms, declared recently in its market letter.

"No amount of damage inflicted by nature will cure the wheat problem or restore and maintain higher prices," it said.

"Common sense on the part of central authorities can restore to farmers in years such as this a period of buoyancy and higher prices but is there the remotest reason for expecting common sense to triumph over folly in any miraculous or immediate fashion?"

"The recent decision of Canada to face the fact, when translated into action, will, it is true give much heart to sadly-spirited wheat markets, but it is likely to be followed by declining prices and reluctant support."

The firm warned traders against "exaggerated optimism" over the reports of rust damage in the Canadian west. The question was how the Dominion would dispose of its wheat, whether the new crop be large or small, it said.—Exchange.

## Gov't Awards Contracts for Federal Work

A general discussion and the awarding of numerous contracts for public works engaged the attention of the cabinet council on Thursday, August 1, the first since the return of the prime minister.

Mr. Bennett stated that no appointments were made but that an order-in-council was passed clarifying, in some details, the surtax on Japanese goods, now in transit. This becomes operative next Monday unless Japan should rescind its similar tax which was passed on July 20. Nothing was considered about the dissolution of Parliament.—Calgary Herald.

## The Farmer Knew

A story is told by the Implement and Machinery Review (England) of two railway officials who were puzzled by the fact that a local farmer never took a railway ticket when he went to the neighboring market but always handed the cash to one of them. These men were brothers and were the general factotums of the depot which was of the wayside, little used kind. But at last they approached the farmer to learn why he persisted in handing the money to them instead of buying a ticket in the orthodox way. The reply was: "Years ago I lost a cow on the railway and never got compensation, so I vowed the company would never get another penny from me—and I know they never shall while you're here."

## WEEKLY SERMONETTE

"A true Christian must learn to love all mankind—not any particular race or people."

## Doings Of Our Neighbors.

At Red Deer: The Red Deer High School may start a commercial department.

At Innisfail: An investigation by the town council into the possibilities of putting in a fire tank at the south end of Central Avenue was discussed at the last council meeting.

At Olds: R. G. Bolt, by virtue of his winning the challenge cup presented by the Canada Malting Company for competition in the O. A. C. 21 Barley Class at the Calgary Exhibition, retains the cup for "keeps," having won the competition three times.

At Crossfield: At the regular meeting of the town council the secretary was instructed to advise the fire chief that the chemical engines were in readiness for brigade drill.

## WEDDINGS

### BATCH—SMITH

The home of Mr. and Mrs. Arthur J. Smith, 210 Fifteenth avenue east, Calgary, was the scene of one prettiest weddings of the season when on Thursday afternoon last, their daughter Alice Mary became the bride of Mr. Jerry Edward Batch, son of Mr. and Mrs. Jacob Batch of Sundre, Alta.

In the drawing room, under an arch of bridal bells, the marriage ceremony was performed by Rev. Dr. R. H. MacKinnon. The bride, who presented a pleasing picture in a white silk tulle dress with orange blossom bridal wreath, was given in marriage by her father.

The matron of honor was the bride's sister, Mrs. K. Good, who wore a pale blue tulle dress and carried a carnation bouquet. Mr. J. A. Batch, brother of the groom, acted as groomsman. After the ceremony twenty-five guests sat down to a wedding breakfast at a table centred with a three-tiered wedding cake in the dining room which was decorated with white wedding bells. The toast to the bride was proposed by Dr. MacKinnon and responded to by the groom. The bride was the recipient of many gifts.

After a short honeymoon Mr. and Mrs. Batch will make their home in Lethbridge.

## CALGARY BOARD of TRADE TAKES STAND ON SOCIAL CREDIT

IT having been represented to the Calgary Board of Trade that people were looking to it for some statement regarding Social Credit, the Council of the Board after prolonged and careful consideration of the arguments advanced for and against the proposals, has decided to submit the following as its considered conclusions on the subject:—

1. The proposals must necessarily involve crushing taxation entirely beyond the capacity of the people of Alberta to pay.

2. Any attempt to fix just prices can only result in incredible confusion and paralysis of business to the detriment of every producer and consumer.

3. The suggestion that dividends can be paid out of cultural heritage and undeveloped natural resources is impracticable and impossible.

4. The Social Credit monetary proposals will lead to a condition similar to that which occurred in Germany, involving the Province, the farmer, the wage earner, and others, in financial disaster.

5. The Social Credit proposals will isolate Alberta and render it impossible for either the farmer or the business man to buy or sell to advantage.

6. Finally, such an experiment as is outlined by the Social Credit proposals will lead to chaos, and entail great suffering from which the province would not recover for many years.

### Mountain View Notes

The Mountain View Social Credit Group has recently held two well-attended meetings at the home of Mesdames Roberts and Blain. Another meeting was held at the home of Mr. Rich Oldham when the marking of the ballot was thoroughly discussed and all voters were warned to mark 1 on their first choice and 2 etc., instead of the former way of marking an X.

Mr. William Blanchard who has been holidaying at the B. A. Atkinson home along with his son Dennis returned to his home on Sunday last.

We are pleased to see Baby Roberts home once again, and hope this time he will be permitted a permanent stay.

Mr. and Mrs. Roy Sargeant and Mr. and Mrs. Henry Sargeant returned home Saturday after spending a few days at the Atkinson home.

Mr. Gulliver has been re-engaged as teacher at Neapolis. Miss Collicut of Crossfield goes to Rosebud, Mr. Shantz at Gore, and Miss Goldie at Mona. The latter three are all new teachers.

### RUGBY NOTES

The monthly meeting of Rugby W.I. was held at the home of Mrs. O. Krebs, with an attendance of 23. Mrs. Parker gave an interesting talk on recent legislation and some short sketches on women members of parliament in Canada. The report of the constituency conference held recently was given. The talk on the "League" this month was given by Mrs. J. H. Hosegood. Mrs. Evans reported a most delightful trip to Olds for Farm Women's Week. A vocal solo by Colin Hogg rounded out a full afternoon's program, and the meeting closed with the National Anthem.

Next month's meeting will be held at the home of Mrs. A. G. Smith with "Education" as the topic, under the convenship of Mrs. J. H. Hosegood.

### Open Letter to Mr. E. P. Foster

Three Hills, Alberta

Mr. E. P. Foster,  
Three Hills

Dear Sir:

On behalf of Mr. Claypool I extend to you an invitation to be present at the Debate arranged for Acme on the 16th inst., so that if this Mr. McLeod who has challenged Mr Claypool should say anything that is contrary to your ideas then, in fairness to you, you will be given the privilege of the floor as the responsible Aberhart Social Credit candidate in this constituency.

Yours very truly,  
(Signed) Wm. Burns  
P.S. Meeting called for 8:30 p.m. Hardware Hall, Acme.

### A. B. Claypool at Elkton

A large number of Elkton people gathered at the school last Thursday evening to hear A. B. Claypool, U.F.A. candidate for the Didsbury constituency.

After reviewing in his speech the U.F.A. administration of the past few years, and their plans for the future, Mr. Claypool threw the meeting open for questions and discussion. During this period many questions were asked regarding the U.F.A. and other parties, especially that of Social Credit, and all were apparently answered very satisfactorily by him.

### Cuts Barley

Mr. Chas. Dickau reports that he started cutting barley Wednesday of last week. Sown in early May the barley is now about 4 feet high and looks real well. Some of the heads measure 5½ inches. Charlie says this is the biggest barley he has ever seen.

Billy Coates is also reported as ready to cut his barley.

### Melvin Notes

Mrs. J. Johnston of Drumheller is a visitor with Mrs. Peter Johnston.

Mr. and Mrs. Summers of Calgary are visitors with their son and family.

Mr. and Mrs. Lancelot Carlson, Gladys Carlson and H. P. Daniels spent last week in Banff.

Mr. and Mrs. Leeson, Carlton Leeson and Mr. and Mrs. Gao, Youngs visited at Lacombe on Wednesday.

Mr. and Mrs. Chas. Youngs spent a few days last week with Mr. and Mrs. Jim Adams.

Walter Swingle, Gay, Olive, Evelyn and Claude, of Salem, Ore. are spending a few weeks at the Ralph Honey home.

Mr. and Mrs. Rube McNair and Donnie, of Durham, Cal. are spending a few days at the A. C. Wahl home.

Mr. and Mrs. Roy McNaughton, Baby Glen, and Mrs. Morgan of Eagle Hill are spending the week at Banff.

Mr. and Mrs. Stubbs, Glen Stubbs and Mr. and Mrs. Bode and baby, of Victoria, are spending a week with their son, T. W. Stubbs.

Mr. and Mrs. August Krebs, Lester Krebs, Mr. and Mrs. W. Brown and Chas. Foss returned Wednesday last from a wonderful trip in the States.

Mrs. Ralph Honey gave a party Tuesday evening in honor of her nieces, the evening being spent playing outdoor and indoor games, following which about forty persons partook of a delightful lunch.

### Burnside Notes.

Dick Metz is visiting at his home here.

Mr. and Mrs. Nate Trenholm and family have moved in with Mr. Albert Spraggs.

Fred Metz spent Sunday with Allingham friends.

We are sorry to say that Mrs. Hugh McLean has been taken to the Didsbury Hospital to undergo medical treatment.

Mr. and Mrs. B. Woods and family and Buster and Cliff White spent Sunday at Sylvan Lake, returning by way of Condor, from which place they were accompanied by Miss Zook who is spending this week with Mrs. Woods.

Lone Pine Women's Institute met at the Hall last Thursday, with Mrs. Clarence Cipperley and Mrs. Thompson Jr. as hostesses. Mrs. Mardon gave a splendid paper on Canadianization. The September meeting will be held at Mrs. E. Hunter's.

### BORN

At Edmonton, Saturday August 3 to Mr. and Mrs. Albert Arlenson a daughter, Constance Grace.

Thursday, August 8 to Mr. and Mrs. Harry Richardson a daughter.

## FACTS About Enarco Motor Oil !

Only two major oil companies operate lubricating Refineries in Canada. The Canadian Oil Companies, Limited Refinery at Petrolia, Ontario, is one of the best equipped lubricating refineries on the continent.

**Enarco Motor Oil** sells in the United States at the same price as motor oils which are selling in Canada at an average of forty cents a gallon more.

The additional cost of higher priced oils sold here covers import duty and jobbers' profits.

Every gallon of **Enarco Motor Oil** sold in Canada is refined at Petrolia, Ont., and sold direct to our dealers. We save you the duty and the jobbers' profits.

**Enarco Motor Oil** is scientifically refined from the highest grade paraffine base crude, in one of the best equipped refineries on the continent.

**Enarco Motor Oil** is thoroughly de-waxed.

Don't mistake price for quality. **Enarco Motor Oil** will satisfactorily lubricate any make of car, truck or tractor at a saving to you.

Remember that few, if any, Motor Manufacturers today specify any particular oil. They know there are many good oils and we are certain if you enquire, they will recommend **Enarco Motor Oil**.

When next buying motor oil, ask yourself this question "Am I getting value for my money or is about one third of my money going to Import Duty and Jobbers' Profits?"

**Enarco Motor Oil** is put up in gallon and quart cans, sealed at our own Refinery. This gives you clean oil, and guaranteed measure.

Try **ENARCO** the next time you need Motor Oil!

## WORLD HAPPENINGS BRIEFLY TOLD

Great Britain has apportioned more than \$25,000,000 to maintain her security by strengthening her air defence.

More than 1,000 settlers have been established in various parts of Quebec under the \$10,000,000 colonization plan, Hon. Erenée Vautrin, Quebec minister of colonization, stated.

Single men able to work and refuse to help farmers with their harvest, will lose their city relief allowances, Mayor G. Wilton of Hamilton has announced.

In Toronto Judge James Parker criticized the Canadian Performing Right Society for keeping the public "in the dark" to its tariff for the playing of "protected" music.

Postules of stem rust were found in wheat in the University of Saskatchewan's grain fields. Garnet wheat, which has little resistance to the fungus, showed most of the infestation.

A higher tonnage of merchant vessels is under construction in the world than at any time since 1932, Lloyd's quarterly report revealed. Germany leads the world outside of Great Britain, with 237,000 tons under construction.

Manitoba was 65 years old on July 15. The province was created and admitted to the Dominion July 15, 1870, though it was not until Sept. 2 of the same year that Manitoba was officially considered a unit of the Dominion of Canada.

Vancouver Island lumber mill managers have received from export sales organizations copies of the last batch of lumber orders from Japan to this continent. Each order has the notation: "Not to be supplied from mills in Canada."

### China Goes Modern

#### Campaign Against Footbinding in Peiping

A campaign against footbinding in the city of Peiping has been launched by Yuan Liang, famous in China as the "blue law" mayor of Peiping. Six regulations have been devised governing the execution of the movement.

The first regulation is that girls under 15 will not be allowed to bind their feet. Those that have already done so are ordered to unbind them immediately. Women between the ages of 15 and 30 who have their feet bound are given three months in which to unbind them. Women over 30 are permitted to unbind their feet at their leisure.

Failure to observe the new regulations results in a fine not to exceed \$10 in Chinese money (\$4 in Canadian) for the first warning, but if warned a second time the fine automatically becomes \$100 in Chinese money, or about \$40 in Canadian currency.

### Bird Refuses Freedom

#### Prefers To Stay With Convict Who Befriended Him

Squegee, the bird in an ungilded cage, had his chance at a pardon from Stateville Prison in Joliet, Ill., but scorned it for his steel and concrete home in cell block C.

The manner in which Squegee eschewed liberty brought a snaffle to John Post, 65-year-old convict, who has been Squegee's master, confidant and cellmate since a day in 1933 when he found the horned lark fluttering in the prison yard with a broken wing.

Post, sent up for burglary, mended the fracture and spent his last \$1.50 for bird seed. Squegee moved into Post's cell.

But Post has still a year "in stir" and suggested to Warden Whipp that Squegee should get his pardon. Accompanied by the warden, the old man went into the yard and tossed the lark into the air.

Squegee soared over the wall—but few right back to Post's shoulder. "I'll keep him," said Post.

The British Museum has a piece of iron taken from the Pyramid of Gizeh, which is believed to date from 400 B.C., and an axe head of Egyptian manufacture dating from 1370 B.C.

### Wooden Shoes Popular

#### Good Business Being Done By Factory In Michigan

Ten times as many wooden shoes are being made and sold now as were several years ago, Chester Van Tongeren, of Holland, Michigan, operator of the only wooden shoe factory in the country, reported.

Most of the output of his workshop, however, goes to tourists. A few persons of Dutch and Belgian descent still use the sabots to work around the barn or in other jobs.

Van Tongeren was a junior at Hope College when he entered the World War. In 1928 he opened his shoe factory on the second floor of his father's tobacco shop. Friends predicted the venture would fail.

Beginning with five assistants, Van Tongeren now employs more than 100 men. Work is not limited to wooden shoes. Souvenirs of every kind leave the Holland factory daily for every city in the United States. They range from ash trays to miniature windmills. All are made of wood.

Van Tongeren views the success of his venture as not phenomenal.

"It's just a matter of bringing out something new and being everlastingly on the alert for ideas," he said.

### Will Not Cut Corners

#### Machine Which Is Wizard At Mathematics Nearing Completion

A machine which can beat the combined efforts of 50 finest mathematicians of the world is rapidly approaching completion at the Victoria University, Manchester. In the space of ten minutes it will be able to dispose of problems which would keep even the most quick-working of human mathematicians busy for two days. It will never get tired, never suffer from headaches, and never misread its own figures. Sheer lack of time may compel the most conscientious mathematician to make "second-best" approximations. This robot mathematician has no need to "cut corners." Professor Hartree, its inventor, wants to probe may hitherto unsolved mysteries of the atom, of the travel of radio waves, and of aeroplane flight with the aid of this robot.

### Would Be Gladly Welcomed

#### British Working On Signal To Eliminate Telephone Waits

In response to a long-felt want the British Post Office is said to be experimenting with a signal which will enable the caller to lay aside the instrument while waiting for the callee. It is to be a different click from that breaking connection and, from its double sound, will be called the "cuckoo." That such a click is needed is shown by many letters in the London Times, one of which reads in part: "It seems extraordinarily clumsy that people have to hold on, often for several minutes, unable to pursue any other occupation, because no one can invent some method by which the telephone shall give tongue when the receiver at the other end is taken up again. I suppose that many hours a day are wasted in this tedious and empty employment of standing or sitting with a receiver to the ear waiting for the required voice."

### On Long Trip

#### Steamer Nascople Starts On Cruise To Arctic Areas

The sturdy little steamer Nascople bade goodbye to Canada Sunday, July 14 as it steamed its way down the St. Lawrence river for its annual 10,000-mile tour of northern Canadian waters.

In a short time she will be steaming into the waters of the Arctic, carrying provisions and passengers to the isolated ports of the far north. It will be September before she returns to Halifax.

The crowds lining the shore saw a group of smiling youngsters, apprentices of the Hudson's Bay Co., off to the Arctic to spend five years of learning the business of fur-trading at isolated posts of the company.

Symbol of all things firm and strong, the Rock of Gibraltar is now chained up to keep its summit from toppling into the sea. 2108

### THE MOST WELCOME ARRIVAL IN YEARS

There was great rejoicing at the Zoological Gardens, London, England, when this little fellow stepped into the world. He is a beautifully marked Harassed Antelope, the first to be born in the Zoo since 1899. Along his back and following the line of the ribs are a number of white stripes which suggest the strapping of harness.

### Ruled By Foreigners

#### Only One Of Europe's Dictators Is Native Born

Most of Europe is now ruled by dictatorships. Strangely enough, most of these dictators are not natives of the countries of which they are absolute rulers. Adolf Hitler of Germany, for example is an Austrian by birth; Mustapha Kemal of Turkey, is a Greek from Salonika; Joseph Stalin of Russia was born in Asiatic Georgia; Eamon De Valera of Ireland was born in New York City; the late Josef Pilsudski of Poland was a Lithuanian. Only Mussolini, among all the more important dictators of Europe, is a native of the country he rules. He was born in Dovia, Italy.

### A Friendly Tip

During the day, Mrs. Brown discharged her old maid and hired a new one, who answered the door bell when Mr. Brown arrived home in the evening. He carried a bunch of roses, which he handed to the maid, saying: "Give these to Mrs. Brown, and tell her I want to see her at once."

"All right," said the maid, "but you better make it snappy, because she expects the old man any minute now."

### Retains His Popularity

#### Prince Of Wales Will Always Be Charming Person

At 41 the Prince of Wales is still an interesting and popular figure, though the charm of his youth has inevitably departed. As a young man he captured all hearts much as Bonnie Prince Charlie did. But his has been a happier lot than that of any of the Stuarts.

From his wide travels he brought back a mature conception of duty, and at home he has studied closely the lives and fortunes of the British people. That he has never married is a disappointment. But this is a detail. No heir to the throne has more faithfully fulfilled the obligations of his position.—Philadelphia Inquirer.

### A Royal Business Man

Lord Carisbrooke, son of Princess Beatrice, and a grandson of Queen Victoria, is not in receipt of any pension from the State, says the News of the World. He has to earn his livelihood, and is a director of several companies, including Lever Bros. He was trained for business as a clerk in the merchant banking house of Lazard Bros., and while there did the ordinary day's turn from 9:30 to 6 just like the other clerks.

## Little Journeys In Science

### THE BUILDING STONES OF THE UNIVERSE

(By Gordon H. Guest, M.A.)

Scientists have discovered that in decomposing certain materials by means of such agencies as heat and electricity, one always finds substances which resist all efforts to decompose them. These materials which cannot be broken up into simpler substances are known as chemical elements. At the present time 92 of these simple and fundamental forms of matter have been discovered.

Water can be decomposed by electricity into the gases hydrogen and oxygen. Red oxide of mercury can be broken up by heat into mercury (quicksilver) and oxygen, and common salt, under certain conditions, yields the metal sodium and the greenish-yellow gas chlorine. Other important elements are iodine, iron, calcium, carbon, sulphur, nitrogen, silicon, aluminum, silver, and gold.

In recent times scientists have discovered that certain substances, known as radioactive elements, decompose spontaneously into other elements. The chemist has no control over these changes. This fact is illustrated in the metal radium, which spontaneously splits up, producing a number of other elements, such as helium, radon, and lead.

It is a very remarkable fact that when elements unite to form new substances, which are known as chemical compounds, they lose completely their own properties. An excellent example of this is common salt, which contains the element sodium (a soft, silvery metal that reacts violently with water to produce hydrogen) and chlorine (a greenish-yellow, poisonous gas). In chemical combination, however, these elements form salt, a white compound which is a necessary part of our diet.

Some common elements occurring naturally are gold, platinum, copper, oxygen and nitrogen. Most of the elements, however, are combined with others in compounds, and it has been found necessary to decompose compounds in order to obtain them. Most of the elements are solids, a few occur as gases and only two, mercury and bromine, are liquids under ordinary conditions.

Although there are 92 elements, only about 25 of these are at all common and important. Moreover, it has been calculated that about 98 per cent. of the earth's crust and the atmosphere is composed of only eight elements. These are oxygen (50%), silicon (26%), aluminum (7.3%), iron (4.2%), calcium (3.2%), sodium (2.4%), potassium (2.3%), and magnesium (2%).

The spectroscope, an instrument invented by the scientists for the detection of chemical elements, has enabled man to study the composition of the sun and stars. The elements aluminum, calcium, carbon, copper, helium, hydrogen, iron, nickel, nitrogen, oxygen, silver, and many others have been detected in the sun.

Thus science has revealed that all materials, from salt to star dust, are built of these simple and elemental forms of matter known as elements.

### Recipes For This Week

(By Betty Barclay)

#### AMBASSADOR STRAWBERRY TARTS

- 1 cup cream, whipped
- 1 egg white, stiffly beaten
- ¼ cup sugar
- ½ teaspoon vanilla
- 1½ cups moist, sweetened coconut
- 1 cup sweetened sliced strawberries
- 6 baked 3½-inch tart shells

Combine cream, egg, sugar, vanilla, and 1 cup coconut. Place strawberries in bottom of tart shells, pile cream mixture on fruit, and sprinkle with remaining coconut. If desired, place one whole strawberry on each tart before sprinkling with coconut. Serve at once. Serves 6.

#### RED RASPBERRY JAM

- 4 cups (2 lbs.) prepared fruit
- 6½ cups (2½ lbs.) sugar
- ½ bottle fruit pectin

To prepare fruit, crush or grind about 2 quarts fully ripe berries. Measure sugar and prepared fruit into large kettle, mix well, and bring to a full rolling boil over hottest fire. Stir constantly before and while boiling. Boil hard 1 minute. Remove from fire and stir in bottled fruit pectin. Then stir and skim by turns for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Paraffin at once. Makes about 10 glasses (6 fluid ounces each).

Leprosy reached America from both Europe and Africa.

## Household Arts

by  
Alice  
Brooks

This Is a  
Jiffy Knit  
It Takes  
Little  
Time To  
Make

#### PATTERN 5395

If you want to make the most of your time, make this jiffy knit. Large needles and a heavy thread (candlewick, that very heavy cotton, or Germantown) make it get done in no time. The entire blouse is in one piece. You have only the side seams to sew. The openwork yoke contrasts effectively with the closer stitch of the body of the blouse. As you can see in the detail, the stitch of the blouse has the effect of stripes. The blouse, lovely for summer, will be very practical for fall and winter, too, short sleeves being quite the thing for wear with a suit. Directions for a plain knitted skirt come with the pattern.

In pattern 5395 you will find complete instructions for making the blouse shown and the skirt in size 16-18 and 36-40; an illustration of it and of the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published.

## MISS ALADDIN

—By—  
Christine Whiting Farmer  
Author Of  
"One Wide River To Cross"  
"The Unknown Port", Etc.

### CHAPTER IX.—Continued

"Walk straight up the road till you pass my house and see a path leadin' into the woods. It's terrible steep and I ain't attempted it for years, though Tubbs and I got engaged to be married up there under the old pine. You'll find our 'initials' cut in the bark with a heart around 'em. Victor Tubbs is a real good carver. If you run into anybody from the Adam ranch, Nancy, tell 'em we'll want extra milk to-morrow. And would you mind peekin' in my bedroom window and see if Tubbs is sleepin'? He's got a delicate stomach, and his supper didn't set good last night."

Suppressing a smile at this unique request, Nance promised, and started on her way. The afternoon was all her own, and it was impossible not to feel a thrill at this unbelievable December day. The sun was warm; yet the paper reported a blizzard raging in New England! It seemed incredible; and next week, Nance mused regretfully, the Country Club would be gay with winter sports.

"I wouldn't be there anyway," she consoled herself, as the homesickness she had supposed vanquished, raised its head again. "I'd be at Edgemere wiping dishes for Mother, or mopping up puddles of snow brought in by Phil. Here's the Tubbs abode already. I must see if Victor's asleep."

This brought a smile, and homesickness retired to that place where such things go when we forget ourselves. Aurora's house which set back a space from the road, was a one-story affair covered with tree-bark, and almost hidden in a grove of stunted pines. Nance went softly up the path and peered in at a window. By pressing her face against the glass she made out an ornate iron bedstead on which the recumbent Tubbs was snoring peacefully; while one of his wife's rich layer cakes and an open jackknife stood on a nearby chair.

Thinking of Victor's "delicate stomach," the girl chuckled as she turned away. No wonder his suppers failed to digest! Should she tell on him? Nance decided against this; but vowed that Cousin Columbine should hear the story. It was too good to keep.

She still smiled as she resumed her walk; but that path into the woods seemed to elude her. Concluding that she had missed it, Nancy stepped aside to escape the dust from an approaching truck, and recognizing the hatless figure of Matthew Adam, hailed him as he was about to pass.

Although on one pretext or another, Mark had dropped in almost every day of the past two weeks,

Nance had not seen Matthew since his blushing exit after colliding with Aurora Tubbs. He was blushing now, the girl observed, and wondered if it were the same blush, or a new one for her especial benefit! She said, as a shy smile hovered across his face on recognizing her: "Sorry to make you stop if you're in a hurry, but Aurora wants more milk to-morrow. And will you show me how I can reach that hill? I've lost my way."

As Matt slid lightly from the truck to stand beside her, Nance was again impressed with the young man's appearance. His blush had subsided; but something told her that he was struggling with embarrassment and furious with himself because of it.

"You should have turned off just after you passed Aurora's," he told her, "but it's no wonder you missed the trail, so few go up that way. It's an easier climb from the other side. If—if you don't mind riding on the truck I'll take you 'round.'"

He was blushing again. Nance caught the idea that he had forced himself to make the offer out of politeness, and thus responded: "Aren't you too busy?"

"Not busy at all; but this truck is second cousin to Methuselah, and—"

Nancy laughed.

"You needn't apologize for the truck! I'm tickled to go for a ride in anything at all. My feet have had plenty of use since I struck Pine Ridge; but that hill tempted me, and the day, too. Isn't it glorious?"

With Matt's assistance she had reached the seat, and said, as they backed around: "Is it far to the other side of the hill?"

"A couple o' miles, maybe."

"Miles! Why I thought it was only a step!"

"To the top of that hill? Well, it's not much more, from here; but it's pretty steep, and we can ride half way up from the other side. My mother used to take us there on picnics when we were kids."

Seeing that the young man's embarrassment had dropped away when he spoke of his mother, Nance grasped the cue.

"Cousin Columbine tells us that Mrs. Adam is—well, what she said was: 'Eve Adam is a grand success as a mother!'"

"I'll say she is!" Matt faced her, smiling, and Nancy saw that he had completely forgotten himself at last. Then the color dyed his face again and he stammered awkwardly: "I—I don't mean that we boys have turned out anything above the average; but—but that—"

"I know what you mean," smiled Nance, coming to his rescue, "though I think Cousin Columbine meant just what you're denying. It must be nice to have such enviable reputations! How did your mother manage it with all four of you?"

She couldn't resist teasing him a little, but it was kindly tact which made her bring the conversation back to his mother; and Matthew answered: "By being herself, I guess. She was always on hand, you know, so perhaps we didn't get into as many scrapes as some kids. Mother's a wonder; and Dad is too. I'm rather crazy about my people, but—but I've said enough. Don't know what got me going or—"

"I got you going!" admitted Nance, a twinkle lighting her blue eyes. And then: "Oh, look! Is that a snow-capped mountain range on the horizon?"

Matthew nodded.

"Here's where we turn. Do you mind a little cross-country riding in this old wreck? You're likely to get some jolts, but—Look out there."

This warning was too late, and only a quick snatch of Matthew's arm which brought her tight against his khaki coat for just a minute, kept

Nance from losing her balance as they dipped into a rain-worn gully. When he released her and the girl looked up, she saw that all his previous confusions were as nothing compared to the embarrassment that engulfed him now. This amused sophisticated Nancy, and she said demurely:

"Thanks for saving my life! Is that another of those pleasant little thank-you-ma'ams looming up ahead? If you'll tell me when one's approaching I'll hang on tight and save you the trouble of rescuing me a second time."

"It—it wasn't a bit of trouble," stammered Matthew. "I mean—I didn't in the least mind—I—"

"I'm glad to know that the experience wasn't unpleasant," broke in Nancy, her eyes dancing. "Do I get out here?" (as Matt, his face the color of a peony, stopped the engine.) "And do I keep straight on until I reach the top?"

"I'd better show you the way, hadn't I? That is—unless—unless you'd rather go alone. I—I don't want to butt in if—"

"Oh, come on," laughed Nancy. "I wasn't keen on solitude, if that's what you mean. And if you've got time to play around for an hour, nothing would please me more. Jack was vanquishing a wood pile; Cousin Columbine was napping, and Aurora was too much inclined to give advice, so I ran away."

Matthew laughed softly. It was a pleasant laugh and his voice was pleasant too, thought Nancy, when he forgot himself and spoke naturally.

"Aurora Tubbs strikes me completely dumb," he told her; "and advice is one of her strong points. She's never recovered from my going to college—thinks it was the last word in foolishness. What's she found to pick at about you?"

"Stockings!" said Nancy, and wondered if Matt, following close behind in the narrow path, was blushing again. "My sport hose got left at home, and she implored me to borrow a pair of Cousin Columbine's 'black cottons.' Honestly, I didn't know till I saw Cousin Columbine the day we came, that cotton stockings were manufactured any more."

"They're growing scarcer all the time," said Matthew gravely. "Even in Pine Ridge there's not much call for 'em; and the high lace boat is doomed."

Nancy whirled about. This was the strangest young man she had ever come across. One moment he stammered with confusion, and the next was saying something as amusing as it was unexpected. Their eyes met as she turned, and they both laughed, and laughing, felt better acquainted.

"I wonder," remarked the girl as she started forward, "where Cousin Columbine gets hers?"

"You mean the boots?"

Nance nodded because the trail was steeper here, and she found herself a little short of breath.

"Maybe she gets 'em where she gets the middies," suggested Matthew. "Slow down, Miss—er—"

"Don't be Victorian," said Nancy, without turning. "Was I going too fast?"

"Too fast for your own good, at this altitude. It takes time to get acclimated when you're transplanted from sea level. Has your brother found a job?"

"Not yet; and he's pretty worried. Oh, just look at the Peak! And—"

**Firestone**

and—why I never imagined such a view. I didn't know there was anything like it in the world!"

Matt beamed, as pleased with her enthusiasm as if he were responsible for the view himself.

"Keep on," he told her, "till you reach that old pine that's been struck by lightning. That tree is practically on the summit; and there isn't a finer view for miles."

"How could there be?" Nance stood, breathless at the foot of the ancient tree. Plains, and mesas, and mountains lay stretched before her—behind her—on every side; valleys that would be green as emeralds in summer; deep gorges; snow-capped peaks. "It's almost too beautiful to be true," she said at last. "Why has no one ever built a home, here on this spot?"

Matt tapped the scarred old tree trunk, shaved clear of bark where lightning had done its work.

"A house would be too good a target! This is the highest point in several miles. Are you afraid of thunder showers? If so, you'd bet—"

## ITCHING TORTURE Stopped Instantly

D. D. D. Prescription Speeds Relief

Even the most stubborn itching of eczema, pimples, mosquito or other insect bites, rashes and many other skin afflictions quickly yields to Dr. Dennis' pure, cooling, liquid, antiseptic D. D. D. Prescription. Forty years' world-wide success. Penetrates the skin, soothing and healing the inflamed tissues. No fuss—no muss. Clear, greaseless and stainless. It dries up almost immediately. Try D. D. D. Prescription now. Stops the most intense itching instantly. A 35c trial bottle, at any drug store, is guaranteed to prove it—or money back. D. D. D. is made by the owners of ITALIAN BALM.

ter pack your trunk before the middle of May!"

"Are the showers so bad?"  
(To Be Continued)

## Talking About House-Flies —Do You Know This?

Doctors And Scientists Realize Danger To Human Life Caused By This Pest

A common house-fly has four black stripes on its back. It has large eyes, short feelers and one pair of wings. It has two small, round balancers, borne on slender stalks, which also act as organs of hearing.

A house-fly cannot bite. Its mouth is spread out for sucking. It has to soak a hard object, like a grain of sugar, with saliva from its own mouth before it can suck it up.

It breeds in heaps of filth and waste and carries disease germs on its hairy legs. It lays one hundred to two hundred eggs in one batch which hatch into maggots in twenty-four hours and after five days become the pupae. This refers to the in-between stage after they are maggots and before they are adult flies.

Is it any wonder that doctors, scientists, health authorities who realize the danger to human life which is carried around by this deadly pest, urge its extermination by every possible means. Infant Diarrhoea, which causes the death of so many little children during the summer months, has been directly traced to the common house-fly.

Cleaning up unsanitary, fly-breeding places around the house, keeping food and drink covered and cupboard doors closed, using screens on doors and windows will all help, but one of the safest, cleanest, surest, easiest methods of killing all the flies is to use Wilson's Fly Pads, for an hour or two daily during the warm weather. They'll keep you free of the disgusting pests. Isn't it worth a little thought for the children's sake?

## Didsbury Advances in Softball Playoffs

By winning the second straight game from Namaka on Friday afternoon with a score of 3-1 Didsbury Hill Billies advanced to the second round in the intermediate softball playoffs.

Holub had the best of what developed into a pitchers' battle, striking out nine and only allowing three hits, while Bremner fanned seven and allowed six hits.

The game was fast and though each team contributed two errors there was some very snappy fielding both in the infield and outfield.

Ward Wyman umpired the game. On Saturday doubleheader exhibition games were played, Didsbury winning both with scores of 8-2 and 14-7.

## Patterson Will Speak On Friday Evening

H. S. Patterson, K.C. of Calgary, and A. S. Gough, of Carstairs, Conservative candidate for Didsbury constituency, will be the speakers at a meeting in the Opera House at 8:30 p.m. tomorrow (Friday) night

## Elkton Notes

A shower was held at the home of Mrs. Hogg on Friday in honor of Mrs. Ernest Fisher, a recent bride. Blocks for a quilt were made and with many other useful presents handed to the bride.

A pair of red foxes have their home north of Mr. Manson's and one of the local boys caught one for a pet.

Miss Bessie Evans is spending a week with Mrs. C. Youngs.

Mr. John Befus is holding Sunday School in the Elkton school every Sunday Morning at 10:30.

Mr. R. Lynch of Elnora, who is visiting his brother here, reports a 75% hail loss at that place.

## BIRTHS

at Didsbury General Hospital

Sunday, August 11th, to Mr. and Mrs. W. McFarquhar, a son.

## CARD OF THANKS

We wish to thank all our neighbors and friends for their kindness and sympathy during our bereavement, also to especially thank the matron and staff of the Didsbury Hospital.

## LOCAL & GENERAL

We are glad to see Rev. F. Vincett around again after his serious illness.

Mr. and Mrs. W. Smith left Sunday evening for a holiday in the mountains.

Mr. H. Oatway of Stony Plain spent the weekend with Mr. and Mrs. W. W. Gillrie.

Try one of our \$1.00 Work Shirts—they are big fitters and good wearers. T. E. Scott

Mr. and Mrs. A. G. Smith spent their vacation at Banff and Radium Hot Springs.

Mr. and Mrs. Jack Pearson spent the weekend with Mr. and Mrs. George Liesemer.

Miss Elva Hawkes of Calgary is spending her vacation with Mr. and Mrs. Herman Hawkes.

Get a pair of our \$2.50 solid leather shoes for the harvest wear. T. E. Scott

Miss Beatrice Grant of Calgary has been spending a few days with her aunt, Mrs. W. W. Gillrie.

Henry Goehring has received an appointment as a commissioner of oaths for the province of Alberta.

Mr. and Mrs. A. H. Foote were Sunday visitors at Sylvan Lake. Mr. Foote is the new manager of the A.P. elevator.

Twenty Years ago: Charles Brown has joined the ranks of the Ford automobile owners and is now burning up the gasoline.

Pete Miquelon, assistant agent at the C.P.R. depot, left Tuesday for a two-weeks' vacation. Charlie Cook will relieve during his absence.

Remember, we sell Man O' Wear pants and Silver King overalls. T. E. Scott

Misses Bea Kendrick and Wynne Studer spent a few days last week at Sylvan Lake with Mr. and Mrs. Austin and Elizabeth.

Mrs. Huget, Nelda and Dorothy, who have been vacationing at Sylvan Lake for the past month, returned home Monday.

We expect that we shall now be changing the headline on W. McFarquhar's ad. to "McFarquhar and Son's Hardware."

Misses Ada Simons and Helen Turner of Salem, Oregon, were recent visitors with relatives here, and have returned home.

Mrs. Eva Hopkins and Betty and Doug Erickson of Bergen are visiting at Sylvan Lake with Mr. and Mrs. Bennie Robinson.

For Friday and Saturday only, we are giving a pair of good socks with every pair of shoes we sell. T. E. Scott
